

連儂牆與自由鳥

Lennon Wall and Freenix

Named after John Lennon, the original Lennon Wall in Prague is a form of peaceful protest against the Communist regime

The wall first appeared in Hong Kong in 2014. Now, it has spread to many districts, mostly taking the form of a wall full of colorful stickies

Similarly, the Freenix is a peaceful symbol of the protests, representing a phoenix rising from ashes, gaining freedom

Let's show our support for Hong Kong by writing a message of support on the Lennon wall, and folding paper cranes of freedom!
